

## SOLIDAIR PISTON TYPE AIR COMPRESSORS DATA SHEET

### Our professionals: efficient and powerful

Mobile piston compressors – oil lubricated – belt drive – 10 and 15 bar – two-stage

Type 10 / 15 bar	Suction Capacity	Effect. Free Air Delivery	Compressed Air Receiver	Max. Pressure	Motor		Revs
	l/min	l/min	litres	bar	kW	volt	revs/min
SOLIDdrive 520	520	430	90	10	3,0	400	800
SOLIDdrive 520-15	425	320	90	15	3,0	400	650
SOLIDdrive 600	580	450	90	10	4,0	400	1470
SOLIDdrive 650	650	540	90	10	4,0	400	1000
SOLIDdrive 650-15	507	385	90	15	4,0	400	780
SOLIDdrive 850	870	670	90	10	5,5	400	1280

#### Portable quality

We give a 10-year warranty against corrosion on our powder-coated receivers. Our compressors are CE-marked - the receivers type-tested - TÜV certification not required. Just connect the power supply, switch on and start working!

#### Reliable condenser technology

Our condensers, the core piece of any piston compressor, are state-of-the-art. Direct- or belt-drive: the professional compressor design guarantees reliable compressed air supply even in the most difficult working conditions.

#### Proven equipment

Standard with automatic stop/start, motor overload protection, pressure controller with quick-acting coupling and two pressure gauges for operating and receiver pressure, safety valve, manual condensate discharge valve with quality Condor pressure switches!
